

Event Name: CI 9 – X- Tech Jeopardy

Description: This is an event which tests the technical as well as the entertainment quotient within you. A team event which is a combination of the well-known game “housie”, a test of your “aiming & biding” skills, how well can you storm your brains to solve a crossword and the basic coding skills with C languages.

Registration fees:50 /- per team.

Rule:

- Exactly 2 participants per team.
- Teams are not allowed to use any of props for explanation during the event.
- The teams qualifying the preceding rounds shall be eligible for the next round.
- External storage devices, laptops, any paper material are not allowed inside the lab.
- The team breaking the rules shall be disqualified.
- Everyone has to register your team with your college name and team members name or you can register on the spot.
- College proof is necessary(I-card)during the event.
- The decision taken by the organizer will be considered as final.

Rounds :

❖ Round 1:

- All the teams shall be provided with an alphabetic grid similar to a numeric grid in housie.
- There shall be a scheme similar to that in housie for cancellation of the letters in your grid.
- The team having all the letters from the grid cancelled either amidst the round or after the completion of the round shall qualify for the next round.

- Time duration of approximately 20 minutes is expected for completion of this round.

❖ **Round 2:**

- The teams will be given a crossword puzzle each to solve.
- The hints for the crossword puzzle will be inside balloons laid on the floor.
- The teams shall use darts to blow the balloons off so as to obtain the hints. Each Balloon will have a certain score allotted to it. The sum of the score gathered on blowing the balloons off and that obtained by solving the crossword will be considered for eligibility to the third round.

❖ **Round 3:**

- The third round will a quiz round wherein the teams will be asked a question in general.
- Each team will have to bid points (obtained in the second round) over the question.
- The highest bid will be selected for answering the question. You gain your points back for a right answer and lose them for a wrong answer.
- The team with the highest score at the end will be declared the winner.
